Weeds and Mulch and Shrubs...OH MY!

Spring is here and it's time to get a move on!

The weeds are starting to rear their ugly heads and a great way to control them is mulch! We offer a variety of mulch types to fit your style and budget. Chances are that if you have an organic mulch in your flower beds, such as pine straw, shredded or chipped wood, it may have decomposed or been washed away by heavy rain. This is the perfect time of year to make sure you get the proper depth of mulch down in your flower beds so that you aren't spending all summer pulling those nasty weeds!

Other early spring chores that we can handle for you include hedge and shrub pruning, cutting back ornamental grasses and perennials, planting and transplanting trees, shrubs and perennials, repairing retaining walls and patios and cleaning gutters. Let us take all the work out of those tedious spring chores! We're your one-stop-shop for getting your yard ready for a glorious season!

Call today to schedule your free consultation!
